PROFESSIONAL SUMMARY

Data Analyst with 3 years of experience specializing in Marketing Mix Modeling (MMM), driving data-driven marketing decisions through statistical analysis and advanced analytics. Skilled in analyzing large-scale marketing and sales datasets to measure channel effectiveness, optimize budget allocation, and identify ROI drivers. Proficient in Advanced Excel and Power BI, with experience in building analytical frameworks, tracking marketing KPIs, and developing dashboards to communicate insights to stakeholders. Strong ability to translate business and marketing objectives into data models, improving campaign performance and strategic decision-making.

Core Skills

- **Marketing & Business Analytics:** Data Analysis, KPI Tracking, Business Reporting, Data Interpretation, Trend Analysis.
- **Visualization & BI Tools:** Power BI, Microsoft Power BI, Dashboard Development, Data Visualization
- **Data Handling & Processing:** Data Cleaning, Data Transformation, Power Query, Data Validation
- **Excel & Report:** Advanced Excel, Pivot Tables, Lookup Functions, Report Automation
- **Business & Stakeholder Skills:** Requirement Gathering, Stakeholder Communication, Business Insights

WORK EXPERIENCE

Senior Analyst

WNS Global Service | Dec 2024 – Present

- Developed and maintained Power BI dashboards to track key business and performance KPIs, enabling stakeholders to monitor trends and make data-driven decisions.
- Analyzed large datasets to identify trends, patterns, and performance drivers, supporting business teams in understanding factors impacting growth and efficiency.
- Performed KPI analysis and trend evaluation to uncover actionable insights, helping stakeholders optimize business strategies and operational performance.
- Automated recurring reports using Advanced Excel (Pivot Tables, XLOOKUP, data transformation), reducing manual effort and improving reporting efficiency.
- Built weekly and monthly performance reports highlighting key insights, variances, and trends for business stakeholders.
- Improved data quality and reporting accuracy through validation checks and data cleansing processes.
- Supported stakeholders with ad-hoc data analysis and reporting requests to aid business decisions.
- Technologies: - Power BI, Advanced Excel, SQL/MySQL, Power Query, Data Visualization

Associate Consultant

Analytic Edge | Apr 2022 – Aug 2023

- Performed trend analysis and KPI evaluation, applying concepts aligned with Marketing Mix Modeling (MMM) to identify key performance drivers and support data-driven decisions.
- Cleaned and processed raw data using Advanced Excel (SUMIF, COUNTIF, VLOOKUP, INDEX-MATCH, Pivot Tables) to ensure data accuracy and usability.
- Developed structured datasets and Built dashboards and visual reports to track key metrics to support business analysis and decision-making.
- Generated insights and prepared presentations to communicate data findings and support business strategies.
- Worked with stakeholders to understand data requirements and deliver actionable insights for improving business performance.
- Performed analytical modeling using regression techniques and scenario simulations to derive business insights.
- Technologies: -Advanced Excel, Data Visualization, PowerPoint, Power BI

Business Analyst | Intern

Blockcube Technology | Dec 2021 – Feb 2022

- Assisted in preparing business documents including FRD and BRD based on client requirements..
- Cleaned, transformed, and analyzed client data using Advanced Excel to ensure accuracy and usability.
- Developed business reports and dashboards using Power BI to visualize key metrics and insights.
- Collaborated with development teams to support product enhancements based on business requirements.
- Created data visualizations using Excel (pivot tables, charts, formulas) to organize and present data effectively.

Subject Matter Expert

Vaidik-Edu-Services | Jul 2019 – Mar 2020

- Solved statistical and quantitative problems for international clients, ensuring accuracy and clarity in solutions.
- Performed data analysis on small and large datasets using Excel and Google Sheets.
- Utilized spreadsheets and presentation tools to organize, analyze, and communicate data effectively.

CERTIFICATIONS:

- **Workshop at the National Institute of Medical Statistics, Delhi [June 2019]:** The workshop guides different statistical studies in medical research. Hands-on experience is provided R, MS-Excel, and SPSS using National family health survey (NFHS) data.
- **Learn Business Analytics at iNeuron.ai [Aug 2021]:** Gained basic to advance level knowledge in the Business intelligence tools like Microsoft Power BI, Advance Excel, and SQL. Done projects on Microsoft Power BI. In the project created dashboards for the 'Student spend' data provided by iNeuron.ai. Which explains the complete information about the dataset through visuals.

EDUCATION

- Master's in Statistics (2018-2020) | Kurukshetra university
- BSc - Statistics/Math(2016 - 2017) | Mukund Lal National college
